STEAMIST®
RELAX. RESTORE. RENEW.

Precautionary Warning Prior to Purchase - Before using a steambath, please consult with your physician. If you are an elderly person, or pregnant woman, or suffering from heart disease, high blood pressure, diabetes, or not in good health, you should not use this device unless otherwise directed by your physician. If you have any other condition that requires the use of medication or drugs, it is also necessary to check with your doctor before steambathing. Avoid direct contact with the steam coming out of the steamhead and with the steamhead itself, as this could cause serious burns or physical injury.

For additional information about the steam product and important safety issues, please visit our website at www.steamist.com or call us at 201-933-0700.

Steam Makes Life Better

Your steam shower will help you release mental and physical stress, and help you maintain a healthy, vital appearance. The embrace of steam will be a source of comfort you look forward to every day.

RELAX

- + Steam soothes sore, tired muscles, and helps release the tensions of your day.
- + Steam will help you get to sleep faster, sleep soundly and wake feeling refreshed.
- + Steam promotes muscular flexibility. You'll stretch, move and work out with greater ease and comfort.

RESTORE

- + Steam fuels blood flow, banishes impurities from your body, and is great for detoxification.
- + Steam can relieve allergies, arthritis, asthma or other respiratory or circulatory problems.
- + Steam can relieve or help prevent skin ailments such as eczema, athlete's foot and acne.

RENEW

- + Steam hydrates skin with warm, penetrating moisture.
- + Steam opens pores, bringing nutrients to the surface and enhancing collagen production.
- + Steam lessens the effects of aging by helping skin stay soft and smooth.

Steam Shower Overview

A basic steam shower system has three components: the Steam Generator, in-shower Digital Control and Steamhead. To enhance the experience, Steamist also offers four Total Sense™ Spa Options as well as in-shower seats and other accessories. Steamist systems deliver great installation flexibility; components can be installed in a closet or other small space near the steam shower.

1. STEAM SHOWER GENERATOR

The heart of the system sized to your steam shower space. Compact design permits installation in a vanity, a closet, an insulated attic or basement. Steamist offers SM Plus Generators, or premium-grade Total Sense Generators, featuring InstaMist® technology.

2. STEAMHEAD

Smoothly and evenly surrounds you with soothing, therapeutic warmth. The 3199 Steamhead with 360° dispersion comes standard with every Steamist Digital Control in a matching finish.

3. DIGITAL CONTROL

Steamist offers you a variety of control options to mount inside of the steam shower. All controls permit the programming of two user preference profiles.

4. AROMASENSE™ SPA OPTION MODULE

Stores and adds either of two fragrant essential oils into the steam line.

5. CHROMASENSE™ SPA OPTION MODULE & LIGHT FIXTURE

Provides a choice of “white light” plus 6 different color effects.

6. AUDIOSENSE™ SPA OPTION MODULE & SPEAKERS

Plays music from any Bluetooth-enabled device. 550 Digital Control streams music from Pandora, Spotify or iHeartRadio.

7. SHOWERSENSE™ SPA OPTION VALVE

Enables installation of 3 different shower outlets, with just one digital control.

Innovations, Only from Steamist

ShowerSense™ Controls the Flow, the Temp, even the Clutter

The exclusive ShowerSense valve lets you enjoy a refreshing shower from up to three different outlets. The 550 or 450 digital control can be preset to deliver two different shower temperatures matched to user preferences. And with ShowerSense, one control gives you total touchscreen command over all steam and shower functions, without cluttering a beautiful shower retreat with multiple controls. See pages 20 and 21.

CLUTTERED CONVENTIONAL SHOWER

A standard showerhead, handheld shower and body sprays require multiple controls and a cluttered, crowded enclosure.

UNCLUTTERED SHOWERSENSE SYSTEM

With ShowerSense, one control covers all steam and shower functions, for a beautiful shower retreat without multiple controls.

SteadySteam™ Puts Your Comfort on Cruise Control

Your body is very sensitive to temperature changes, so fluctuations of more than a few degrees from your programmed “setpoint” temperature will make your steam experience less enjoyable. With other manufacturers’ systems, temperatures will rise and fall numerous times during a steam session, which means you won’t stay comfortable. Steamist’s Total Sense™ Steam Generators combine with the 550, 450 or 250 digital control to deliver the consistent comfort of SteadySteam. Once the system reaches your setpoint, the temperature will cruise consistently within your comfort zone.

PRECISION: THE TOTAL SENSE STEAM GENERATOR

Modulating design enables precise adjustments to steam output, resulting in SteadySteam...a consistent, comfortable steam shower temperature.

PATENTED DUAL SENSOR TECHNOLOGY

The 550, 450 and 250 controls all have dual-temperature sensors. Steamist’s patented sensor design delivers extremely accurate readings to smoothly regulate the steam shower environment.

Steam Generators Total Sense™ & SM Plus

Steamist offers Total Sense™ or SM Plus Steam Generators. Both have a stainless steel tank for years of dependable service, and save water and energy. The average 20-minute steam shower uses less than one gallon of water. Compare that to a whirlpool tub that holds a minimum of 40 gallons of pre-heated water.

FEATURES OF ALL TOTAL SENSE AND SM PLUS STEAM GENERATORS

- + All models allow the user to enjoy one or more of Steamist's Total Sense Spa Options
- + Compact design permits generator installation in a vanity, a closet or an insulated attic or basement
- + Cable included with generator
- + Lifetime Limited Warranty
- + UL Listed

TOTAL SENSE GENERATORS FEATURE INSTAMIST® AND STEADYSTEAM™

The user can activate the InstaMist feature using any Steamist digital control, and get quick-response steam. In about a minute, the steam shower will begin heating up.

Quiet, continuous SteadySteam technology maintains steam shower environment at the user's preset level, without uncomfortable temperature spikes.

In addition, multiple Total Sense generators can be ganged together for larger steam showers.

Steam Generator Specifications

STEAM GENERATOR SIZING*

For easy generator sizing, visit steamist.com. Use our online Residential Steambath Sizing and Selection Guide. You'll need to have an idea of the shower stall dimensions for more accuracy. The guide will also help you select spa options, controls and accessories. You may also see the back cover for the easy steps to calculate the adjusted cubic footage for your steam shower.

All Steam Generators shown are 240 Volt. For 208 Volt, add "-208" to Product Code. Example: TSG-7-208.

For 208V, current amps will be higher, breaker size larger. Contact Steamist for more information.

For 3-phase TSG and SMP generators, please contact Steamist for special order options.

**90°C copper wire required for connection to generator.

GENERATOR PAN AND AUTO DRAIN PACKAGES

\$605 | GPAD-240 **\$714** | GPXLAD-240
 | GPAD-208 | GPXLAD-208
 for 5-15 kW units for 20-30 kW units

Packages available in 240V or 208V and include all components recommended for field installation with TSG or SMP steam generators*. Generator Pan† features elevated support for generator and solid-brass plumbing connection. Auto Drain will open automatically to purge the system after water in generator cools.

*For installations utilizing more than one Steam Generator, order a quantity of Accessory Packages equal to the number of generators.

†GPAD Pan is high-temperature impact-resistant plastic (shown), GPXLAD Pan is galvanized.

Spa Options That Make Total Sense

On the pages that follow, we present four Total Sense™ Spa Options that are available to enhance your steam shower experience. All four of these options are compatible with either TSG (Total Sense) or SMP (SM Plus) Steam Generators. You can order one or more Spa Options individually, or select one of our Spa Option Packages.

AROMASENSE™

CHROMASENSE™

Bring the Total Package Home

OUR TOTAL SENSE™ SPA PACKAGES INCLUDE 3 EXPERIENCES:

- + AromaSense Spa Option, with Relax and Respiratory Essential Oil Canisters
- + ChromaSense Spa Option, with one light fixture with chrome trim ring
- + AudioSense Spa Option, with either “Classic” Exposed Speakers or “Invisible” Speakers

Spa Package with “Classic” Exposed AudioSense Speakers

\$4,020 | TSSP-CL

Spa Package with “Invisible” AudioSense Speakers

\$4,020 | TSSP-IN

Note: Packages do not include ShowerSense™ Spa Option. See page 21.

AUDIOSENSE™

SHOWERSENSE™

AromaSense™

Infuse your steam experience with fragrant essential oils. For centuries aromatherapy has demonstrated remarkable therapeutic powers, from relaxing body and spirit to soothing respiration to sparking creativity. And only AromaSense adds 100% undiluted essential oils to the steam shower, ensuring your pure pleasure.

AROMASENSE MODULE:

- + Holds two easily-replaceable 100 ml essential oil canisters, allowing you to select your favorite scent without leaving your steam shower.
- + Pumps just 1/4 drop of pure undiluted oil at a time, so each canister lasts for months.
- + Connects into steamline and needs to be located in a closet or utility room near the steamhead.
- + 11.875" H x 8.125" W x 5.25" D

AromaSense Spa Option

\$1,500 | TSA

AromaSense Essential Oil Canisters - 100 ml

\$145 each

ESSENTIAL OIL CANISTERS, 100 ml

Sold separately. We recommend two canisters be purchased with the AromaSense module. Essential oils also available in 10 ml bottles, see page 29.

RESTORE | AS1-100

Refreshes and renews the spirit.

ShowerSense™

ShowerSense lets you enjoy the steam experience, followed by a refreshing shower from up to three different outlets. Either the 550 or 450 Digital Control lets you select either of two different shower temperatures, programmed to match user preferences, and give you total touchscreen command over all steam and shower functions, without the clutter of multiple shower controls.

The ShowerSense valve is easy to install in any position behind the wall, and is both temperature compensating and pressure balancing to optimize user comfort.

SHOWERSENSE VALVE:

- + 9.1 gpm maximum combined flow
- + 1.0 gpm minimum flow
- + ASSE 1016 Listed
- + Meets strict lead-free requirements
- + 1/2" pipe connections
- + Low-voltage UL power supply
- + Less than 2°F temperature variation
- + 11" H x 5.25" W x 1.5" D

FLOW RATES @ 45 psi

- 1 outlet used | 6.5 gpm
- 2 outlets used | 8.7 gpm

Note: SH controls do not ship with steamheads.

550 Digital Control

The 550 is Steamist's most advanced control system. New upgrade features bring the user increased flexibility in use:

- + A larger high-definition touchscreen display
- + Multiple-language display capability
- + Easily adjustable display font sizes
- + Can be installed in Portrait (vertical) or Landscape (horizontal) orientation

Compatible with Steamist TSG or SM Plus steam generators, the 550 can operate all Total Sense™ Spa Options.

- + Programmable for two user profiles including temperature, duration and spa option preferences
- + Patented dual-temperature sensor technology for superior temperature accuracy
- + 3199 Steamhead included in matching finish
- + Built-in mySteamist Wi-Fi

When installed with a TSG steam generator, it also allows the user to turn the selectable InstaMist® feature on and off.

STEAM SMARTER WITH VOICE ACTIVATION

Your steam experience is now easier than ever. The 550 connects with virtual assistants Amazon Alexa and Google Home...a simple request, Steamist powers on and your preferred spa settings are activated.

STREAMING MUSIC CONNECTIVITY

The 550 is preprogrammed for connectivity with iHeartRadio, Spotify and Pandora. If you have Steamist's AudioSense™ spa option, you can link to any of these popular streaming music services and listen to your favorite artists and musical genres as you enjoy your steam shower.

Frequently Asked Questions

IF I SELECT THE TOTAL SENSE 550 OR 450 DIGITAL CONTROL, DO I ALSO HAVE TO INSTALL THE COMPLETE MENU OF AROMASENSE, CHROMASENSE, SHOWERSENSE AND AUDIOSENSE OPTIONS?

No. If you purchase the 550 or 450 Digital Control, you can then select all four Total Sense Spa Options, or choose AromaSense, ChromaSense, ShowerSense and AudioSense as individual Spa Options.

If you purchase a “TSG” or “SMP” generator, but choose not to install any of the Spa Options, you can purchase any of the Steamist Digital Controls (550, 450 or 250) with or without the 220 on/off control.

DO I HAVE A CHOICE OF FINISHES FOR STEAMIST COMPONENTS IN MY STEAM SHOWER?

Yes. Most Steamist controls, as well as the 3199 Steamhead, are available in designer finishes.

WHAT MAKES A STEAMIST STEAM BATH AN “ATTAINABLE LUXURY”?

If you think adding a steambath to your home is a major remodeling project, you may want to reconsider. The compact steam generator can fit inside a typical vanity cabinet, and the plumbing and electrical connections are simple for your professional

installer. In many cases your installer can convert an existing tub/shower into a steambath by enclosing the door so steam does not escape from above.

WHAT ABOUT MAINTENANCE?

The Steamist system is virtually maintenance-free, and is covered by a Limited Lifetime Warranty on the Steam Generators.

CAN MY EXISTING TUB/SHOWER BE CONVERTED TO A STEAMBATH?

Depending on existing circumstances, it may be converted. However, you must get the advice of a qualified professional (a licensed contractor with plumbing and electrical experience) before proceeding with your plans.

WHAT’S THE DIFFERENCE BETWEEN A STEAMBATH AND SAUNA?

First, both steam and sauna systems provide similar benefits for your mental and physical well-being. The difference between a steambath and a sauna is basically “wet heat” versus “dry heat”. Sauna room temperatures may actually be higher, but you may “feel the heat” more by adding steam. It really comes down to personal preference. A sauna requires building a separate wooden room to enjoy the system. A steambath

system, however, can generally be more easily integrated into an existing bathroom or new home plan at lower cost.

DOES MY EXISTING TUB/SHOWER REQUIRE ANY MODIFICATIONS TO MAKE IT A STEAM SHOWER?

Yes. The door and enclosure must be totally enclosed so the steam does not escape from above. A 3/8” gap at the bottom of the door will allow cooler air to enter the shower for a more dense steam experience.

CAN I USE AROMATHERAPY PRODUCTS IN MY STEAM SHOWER?

Yes. The Steamist 3199 Steamhead has a “well” in the top. This allows you to put a couple of drops of essential oils in it. This is a wonderful enhancement to the steam experience. However, do not put oils on the steamhead while steam is being emitted from the head, as there is a possibility for injury due to burning. Caution: Steam is 212°F; in other words, steam is HOT! For aromatherapy, you can also install the AromaSense spa option with your Total Sense system.

DO YOU NEED AN EXHAUST FAN IN THE STEAMROOM?

No. After a steambath take a cool or warm shower and the steam condenses down the drain.

I HAVE VERY HARD WATER. IS THERE ANYTHING THAT I NEED TO DO TO PROTECT MY STEAM UNIT?

You may want to consider a whole-house water treatment system if the water quality is a concern. The Steamist steam generator can operate in conjunction with a water softener. It is important to realize that good water is a condition which is desirable for drinking as well as protecting the plumbing systems, decorative hardware, faucets and glass from the negative effects of hard water. An automatic drain is also available but not required for the generator.

WHAT DO I NEED TO INSTALL A STEAM GENERATOR IN MY HOUSE?

The installation requirements are relatively simple with connections similar to that of a water heater with 240-volt electricity and a cold (or hot) water supply to the unit. A steam line to the bathing area and a glass steam enclosure are all that is necessary to complete the installation.

DOES A STEAM GENERATOR TAKE UP ANY USABLE BATHROOM SPACE?

No. The unit is compact and can be installed preferably up to 50 feet away from the bathing area in a vanity, closet, insulated attic or basement.

IS THE STEAM GENERATOR EASY TO OPERATE?

Yes. Touch and spa controls inside (or outside) the steamroom make it both convenient and very comfortable to relax and enjoy a steambath. With Steamist's Total Sense integrated system, it is easy to control steam, aromatherapy, chromatherapy or music using one touchscreen control.

IS THE STEAM GENERATOR EXPENSIVE TO USE OR OPERATE?

No. Conservative on water (1 - 1-1/2 gallon average) and electricity, Steamist is a very cost-effective way to relax at home. As compared to whirlpool tubs, 2-3 fills of the tub can give the bather a year's worth of steambaths.

CAN I USE A 120V STEAM GENERATOR INSTEAD OF A 240V GENERATOR?

A 120V generator has limited applications. It can be used in small acrylic shower units, which don't have high heat demands due to size and wall materials.

In today's upscale steam showers, demands of time and materials such as marble, travertine, etc., have power requirements which are best served by a 240V generator. Heat loss from an open door can be recovered quickly. This is not possible with a 120V unit. (Ask your sales associate for help in sizing the proper steambath generator to avoid purchasing an improper unit, or refer to the Residential Steambath System Selection Guide or the Commercial Generator Sizing Guide.)

NOTE: Steamist also manufactures 208V generators to match local utilities where this voltage is used.

ARE THERE ANY RESTRICTIONS ON USING A STEAMBATH?

Yes. Doctors consider "steam" generally healthy to use, but people suffering from heart disease, high blood pressure, diabetes, pregnant women and the elderly who are not in good health should not take a steambath without consulting a physician. Women who are pregnant should also consult their physician before use.

STEAMIST®
RELAX. RESTORE. RENEW.

Commercial Steambath Systems

Steamist offers a complete selection of Steam Generators, Controls and Accessories for steamrooms in commercial applications. In commercial environments it's particularly important to be able to program a Steam Generator for energy-efficiency and reduced costs during off-peak hours.

HC SERIES STEAM GENERATORS INCLUDE OUR DIGITAL CONTROL PACKAGE.

- + Allows programming of steamroom settings from up to 100-foot distance from generator (50-foot cables ship standard).
- + Idle setback feature allows efficient tailoring of operations for off-peak hours. Each day of the week can be programmed individually. Provides maximum temperatures and energy-saving "idle" temperatures.
- + When installed with Second Room Package, can program two steamrooms with one generator.

Package includes:

- + Microprocessor Boiler Control with two relays prewired for the aromatherapy pump
- + Digital Command Center and cable
- + User Bypass Control and cable
- + Room Sensor and cable
- + Steam Solenoid pre-assembled to the steam generator

Optional Second Room Package Available

HC Series Generators come with Steamist's 3199 Steamhead, with Cool Sense silicone cover.

Steamist, Inc. is proud to be an ASME Authorized Certificate Holder. All of our HC Series Steam Generators are certified and stamped to meet stringent ASME codes and UL standards.

MODELS HC-9/12/15/18/24*

Dimensions: 21"L x 19"W x 25"H

* Shown with optional second room package and Automatic Blowdown Valve

MODELS HC-30/36/48

Dimensions: 39"L x 22"W x 28"H

				64804	480	3	58	80	

*Note: 90°C copper wire is required for connection to the steam generator.

Auxiliary Manual Reset Pressure Cutoff is now standard on all Steamist Commercial HC Series Generators to meet UL 834 and ASME CSD-1 standards. Many state and local codes require an auxiliary pressure cutoff device with a manual reset.

HC Steam Generator Controls and Accessories

USER BYPASS CONTROL INCLUDED IN HC SERIES PACKAGES

User Bypass Control installed outside steamroom allows user to change settings within programmed temperature range.

A

B

Optional Second Room Package

Includes 2nd User Bypass Control with 50' cable, 2nd Room Sensor with 50' cable, 2nd Steam Solenoid pre-assembled to the steam generator, 2nd Steamhead.

SRP Second Room Package

\$650 | 68010 (not sold separately)

Pure Aromatherapy Oils (Optional)

For use only with our AP-100 Aroma Pump System. 1100 ml of essential oils, equivalent to competitors' 10L/2.6 gal. diluted spa oils commonly found on the market.

Essential Eucalyptus Oil (1100 ml)

\$270 | HC-EUC 68018

Essential Lavender Oil (1100 ml)

\$390 | HC-LAV 68019

A. Optional Aroma Pump System

The Steamist AP-100 is unique to the industry. It is a micro-dosing pump designed to work with pure essential oils. Most pump systems on the market today deliver a higher volume of diluted oils. Since oil does not mix with water an emulsifier chemical is used to help dilute the oil. The AP-100 delivers the full therapeutic value of pure essential oils without emulsifiers and dilution agents. Diluted oils are typically just 5% or 10% oil. Our 1100 ml bottles of pure essential oil deliver more oil than the typical 10 liters/2.6 gallons of diluted oil commonly sold.

4" W x 18" H x 4.5" D

AP-100 Commercial Aroma Pump System

\$1,100 | 68017

B. Programmable Steamroom Temperature Alert

Digital display with audible alert, secondary remote audible alert, tamperproof lock, heater interrupt relay and test button. Lock feature prevents patrons from changing the temperature setpoint, prevents the alert from sounding and prevents the heat from being cut off. The alert cannot be reset until the room cools down below the programmed temperature. Interrupt relay disables heater when the audible alarm sounds. Test button is used to check that the heater is disabled when alert sounds.

6.5" W x 7" H x 1.75" D

TA-100 Temperature Alert

\$1,000 | 68016

C

C. Commercial Chakra Light Kit

Manually toggle through 7 chakra colors using an ordinary light switch; automatic mode rotates through the colors. White light is bright enough for general space lighting.

\$800 | 68022

Additional Chakra Light Fixture

Connects to Chakra Light Kit for additional light in larger spaces.

\$470 | 68023

Auxiliary Manual Reset Low-Water Control (not shown)

Many states and local jurisdictions, as a standard, require an independent, manual reset, second low-water cutoff control. Please check with your local jurisdiction if this needs to be ordered together with the HC steam generator. (This is a factory-installed option and cannot be sold without a Steam Generator.)

\$700 | 68020 (not sold separately)

D

D. Digital Automatic Blowdown Valve

Automatically empties the steam generator at the end of each day.

DC-ABD, 208V Valve
\$700 | 68014 (not sold separately)

DC-ABD, 240/480V Valve
\$700 | 68015 (not sold separately)

E

E. Automatic Blowdown Tempering Valve

Installs into drain line as an alternative to a blowdown tank for tempering hot blowdown water. Injects cold tap water when thermal actuator senses blowdown water over 120°F. As blowdown water cools, valve reduces cold inlet flow. At approximately 110°F cold inlet is fully closed.

8.5" H x 6" D
\$880 | 68021

F

F. ASME Code Blowdown Tank

Permits draining of hot boiler water into the tank before it is dumped into drainage system.

Allows the HC blowdown system to comply with codes prohibiting discharge of water exceeding 140°F.

\$2,680 | 68007

G. Optional 24" Stand for HC Series Steam Generators

\$430 | 68005
HC-9 through HC-24.
20" L x 10-1/2" W x 24" H

\$510 | 68006
HC-30 through HC-48.
25-1/2" L x 14" W x 24" H

G

For easy generator sizing, visit steamist.com and use our online Residential Steam Bath Sizing and Selection Guide.

RESIDENTIAL STEAM GENERATOR SIZING

Follow the steps below to select the proper Steamist Steam Generator for your steam shower.

1. Measure then Multiply the Length x Width x Height (in feet) of the steam enclosure to determine CUBIC FOOTAGE

2. Adjustments to Cubic Footage to determine Total Room Volume.

Materials: For natural stone or marble, multiply by 2.0 OR for ceramic or porcelain tile, glass or glass block, multiply by 1.35. If using another material, consult manufacturer for their recommendation in a steam shower application.

Exterior Wall: For one, multiply by 1.1; for two, multiply by 1.2.

Ceiling Height: For 9 ft. ceiling, multiply by 1.15; for 10 ft. ceiling, multiply by 1.3.

3. Select Steam Generator (page 11) with a "Cubic Foot Range" equal to or greater than your Adjusted Cubic Footage. In the example shown, you would select a TSG-12 or SMP-12 generator.

Note 1: If there is a skylight or outside window, select the next largest generator.

Skylight or window must be double-pane and sealed from inside the steam shower.

Note 2: Generator voltage must match existing local utilities (208 or 240 Voltage).

Note 3: For optimum performance, ceiling height should not exceed 8 feet (10 feet max)

Example: Based on a 5 ft. x 6 ft. x 8 ft. high room with marble walls and one exterior wall.

Cubic Footage:	$5' \times 6' \times 8' = 240$
Material Adjustment:	$240 \times 2.0 = 480$
Exterior Wall Adjustment:	$480 \times 1.1 = 528$
Ceiling Adjustment:	0
Adjusted Cubic Footage:	= 528
